1. If I sign either Colonel [REDACTED]'s memorandum or Mr. [REDACTED] (References (a) and (b)), I don't know just what I am approving and I want to be sure before approving anything. While I can see the advantage of color photography for badges, I have the following questions.

a. Why does it cost \$40,000 for this equipment---sounds like a lot?

25X1A6a b. Why are \$5,000 alterations to [REDACTED] necessary and can Logistics absorb this?

c. Does Security really propose to put \$5,000 for camera equipment (reducing the \$40,000 to be absorbed by Logistics to \$35,000 presumably)? Does the Comptroller think that this is the best way to finance all of this?

d. Why would four additional people be necessary to implement the project and why would two additional people be necessary on a permanent basis?

2. I assume that as a result of your studies of the Printing Services Division you can, with a minimum of additional effort, give me some answers to the foregoing questions. Please do so at your earliest convenience and prepare a proposed paper for my signature which would, if signed, implement the action you recommend.

2 Atts.
